EXPERIENCE

Freelance Full Stack Developer

Self-employed, Lebanon | Jul 2026 – Present

- Designed and built 20+ responsive, bilingual (English and Arabic) websites for local businesses, owning each project from requirements through launch.
- Built ordering flows and admin panels on Node.js serverless functions with Redis and Netlify Blobs storage, so business owners can manage orders and content without a developer.
- Modelled databases with PostgreSQL and Prisma, and built the API routes, login, and payment flows for a bilingual e-commerce platform.
- Set up hosting, custom domains, and DNS on Vercel and Netlify, and handed over each site with working admin access.

SELECTED PROJECTS

Tayseer | tayseer-alpha.vercel.app

- Bilingual (Arabic RTL / English) e-commerce platform. Next.js, TypeScript, PostgreSQL, and Prisma, with an admin panel, phone OTP and email login, and card and cash payments.

Deen's Coffee | deenscoffeeshop.com

- Coffee ordering website with unique daily order numbers, an owner admin panel, and photo uploads. Vite, Tailwind CSS, GSAP, and Netlify Functions with Netlify Blobs.

Spoil Fashion

- Online clothing store with WhatsApp checkout and an installable admin PWA that sends Web Push notifications for each new order. Vercel serverless API and Upstash Redis.

MEA Techno | meatechno.vercel.app

- Bilingual product catalog of 250+ products with a quote list that customers send by WhatsApp.
