SUMMARY

Final-year Computer Science student and freelance full stack web developer who has built and deployed 20+ websites for businesses in Lebanon, including ordering systems with admin dashboards and databases. Delivers bilingual (English/Arabic), mobile-first projects end to end, from requirements and development to hosting and domain setup, using JavaScript, Node.js, Vite, Tailwind CSS, and serverless platforms.

TECHNICAL SKILLS

Languages & Frontend: HTML5, CSS3, JavaScript (ES6+), Vite, Tailwind CSS, GSAP, Responsive & Mobile-First Design, RTL/Arabic Localization

Backend & Databases: Node.js, REST APIs, Serverless Functions, PostgreSQL (Neon), Redis (Upstash), Netlify Blobs

Deployment & Tools: Git, GitHub, Vercel, Netlify, Domain & DNS Setup

Web Capabilities: Progressive Web Apps (PWA), Web Push Notifications

AI-Assisted Development: Claude, Claude Code, Gemini, ChatGPT, Google Antigravity

EXPERIENCE

Freelance Full Stack Web Developer

Self-employed, Lebanon | Jul 2026 – Present

- Delivered 20+ responsive, bilingual (English/Arabic) websites for local businesses, owning each project from requirements through development to launch.
- Built WhatsApp-based ordering flows, product catalogs, and admin panels that let business owners manage orders and content without developer assistance.
- Developed backend functionality with Node.js serverless functions and databases (Neon PostgreSQL, Upstash Redis, Netlify Blobs), deployed on Vercel and Netlify.
- Worked directly with business owners on requirements, design, and content, and handled deployment and custom domain setup to hand over finished products.

SELECTED PROJECTS

Deen's Coffee | deenscoffeeshop.com

- Coffee shop ordering website with unique daily order numbers, an admin panel for managing content, and image uploads.
- **Tech:** Vite, Tailwind CSS, GSAP, Node.js serverless functions, Netlify Blobs

Spoil Fashion

- Online clothing store with WhatsApp checkout and an installable admin PWA that sends push notifications for new orders.
- **Tech:** Progressive Web App, Web Push Notifications, Vercel

La Madeleine | lamadeleine.online

- Bilingual English/Arabic business website with RTL support, live on a custom domain.
